

# GREATER NAPLES FIRE RESCUE DISTRICT

## GENERAL ORDER

041724

STATION 76

**SECTION**

All Sections

**ATTENTION**

All Personnel

**EFFECTIVE**

May 1, 2024

**EXPIRES**

N/A

Starting May 1<sup>st</sup>, 2024, at 0800 hours, Squad 76 will be moving from Station 76 to Station 73. This move is temporary at this time, until the District can gather enough call data/statistics to evaluate. Once this has been evaluated, the District will decide on whether or not having a squad at 76 fits the needs of its constituents and the District. This process should take three to four months.

During this time, the personnel who are assigned to Station 76 will be assigned to Station 73 and run as Squad 73. Squad 73 will remain in service full-time, as it is now at 76, and only require the lieutenant to be moved as a last resort. Squad 73's ALS will be maintained, as well.

The officer assigned to Station 73 will still oversee Station 73. When both Engine 73 and Squad 73 arrive as first due on an incident, the officer on Engine 73 will be the officer in charge. The only exception to this is if the officer on Squad 73 is a Captain and the officer on the Engine is a lieutenant.

When there is a vacancy for an officer on Engine 73, the officer assigned to Squad 73 will staff Engine 73. The vacancy of the officer on Squad 73 shall be filled by overtime, if needed, going to firefighters first. The same standards that apply to the other squads shall apply to Squad 73 when staffed by two firefighters.
