Station 74 Update: A Temporary Certificate of Occupancy (TCO) has been issued for Occupancy; however, a few issues are still being addressed that prohibit move-in.

Station 26 Update: The team met with the County and FDOT for the Pre-SDP meetings. The design team is moving forward with site design.

FLS Fees Update: District staff are continuing to field presentations on potential third-party collections solutions (Fire Recovery USA), as well as meeting with neighboring Districts, who are utilizing Fire Recovery USA, to discuss their experiences (pros and cons) with the cost recovery program. This project is still on the project list; however, we have slowed the tempo as we maybe need to expand the scope to include additional billable response. As such, this may impact the best third-party provider for the District.

General Liability/Workers Comp Insurance RFI: The District received two responses to the RFI for insurance brokerage and advisory services. Staff is currently reviewing the proposals, evaluating available options, and conducting follow-up discussions as needed to determine the best path forward for the District.

Impact Fee Study: The District received three proposals to conduct a new impact fee study. The proposed contract is currently being reviewed and revised by legal counsel prior to execution. Once executed, the project is anticipated to take approximately 180 days to complete.
